HELP

for huge reward

StreetSmart is a community initiative that raises funds to help street children through donations collected from diners in participating restaurants.

It's an effortless process for a huge reward, and you, as the restaurateur, don't have to pay a cent.

Funds are raised by your patrons agreeing to add a donation to the table's bill.

StreetSmart SA ensures that all donations go directly to well-established and verified organisations providing services to street children from outreach and shelter to education, skills training and family reunification.

Get involved today and let your community benefit.

LOCAL

benefits everyone

By joining StreetSmart you will help vulnerable and street children in the city or town you cook for!

The money raised in your restaurant will be distributed to selected beneficiaries in your community. Every cent goes to these beneficiaries for projects which provide skills and resources for long-term projects that help vulnerable and street children.

None of the collected funds is spent on operational costs; these are paid for by our sponsors.

Sign up and be part the StreetSmart community, which includes some of the top establishments in South Africa. Your restaurant will feature in our press releases to publicise the initiative.

We're grateful to StreetSmart for providing a simple and easy way to contribute towards children in need.

R5 really is such a small ask, but it adds in the end to a substantial, helpful amount.

I always top up the amount to a round figure and doing so makes me feel good when I see all the meaningful projects that StreetSmart supports."
